# A Life Talk Workshop

## What is Life?

**Saturday, February 8, 2025**  
**10:00am – 2:00pm**

The world around us can be deeply discouraging in the many ways human life is degraded and devalued. From the beginning of life to its end - from abortion, reproductive technologies, and research on human embryos, to euthanasia (MAiD), life seems reduced in its value. So many people seem confused about the value of human life. In this workshop, Fr. Kevin will help us renew our understanding of the beauty and depth of God's plan for life.
